DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group 1, claims 1-13 in the reply filed on November 23, 2004 is acknowledged.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 1 and 2 recite the phrase "substantially all of the components" in lines 1-2. "The components" lacks antecedent basis, as components were not previously recited in the claim and it is not clear what is encompassed by "components". Also, the term "other automobile controls" in claims 1 and 2 is overly broad and does not adequately define the scope of the claimed subject matter. The term "the floor board" in claim 1, line 10 lacks antecedent basis. When "a spherical mirror" is mentioned in line 17 of claims 1 and 2, it is not clear whether this mirror is the aforementioned first mirror or second mirror, or a third mirror. In claim 3, the phrases "the eyes of the viewer" and "the computer display image" lack antecedent basis. Claim 4 also recites "the eyes of the viewer" without providing antecedent basis. Claim 5 recites "the user", which lacks antecedent basis. Claim 7 recites "further

comprising a cockpit", which makes it unclear whether the ensuing language is intended to limit the cockpit recited in claim 5 or whether a second cockpit is being claimed.

Claim 8 recites "frame and housing", which lacks antecedent basis. Claim 8 also recites a "themed" vehicle. This term is indefinite, as it is not clear what structure is encompassed by the term. Claim 10 recites "fully configurable" interactive displays; again, it is not clear how this defines the structure of the invention. Claim 11 recites that the cockpit is "substantially totally enclosed"; this fails to limit the scope of claim 5, which already recites a closed cockpit. Claim 13 recites "the plurality of fully configurable interactive displays" which is indefinite for the reasons discussed above and because it lacks antecedent basis.

Because of the numerous rejections under 35 USC 112, examination in light of the prior art will be done once the claim language is amended to make the scope of the claims more clear. Such examination will be made non-final.
